D Brangwyn proposed that an extraordinary meeting of parents with young children be held to ascertain their requirements for the playground. Cllr Williams advised that the closing date for next year's grant applications is likely to be circa early April, by which time quotes should be obtained and a decision on spend would have to be made.
J Burgess was asked whether the Fête Committee would consider contributing to costs of playground improvements. It was agreed that parents of young children be contacted in the new year in order to meet the April 2006 deadline specified above.

be made in future years. Discussion ensued regarding the merits (or otherwise) of kerbing for inclusion in future grant submissions. 8. Any Other Business:

- a) Cllr Booth outlined recent reorganisation of WCC – a new Chief Executive has been appointed and the number of departments reduced from 9 to 6. A combined Children's Social Services and Schools Department has been created to which a new Director has been appointed. Adult Social Services is now a separate department, the head of which has yet to be appointed.

Council's rating of 'excellent' in CPA last year is expected to be 'good' in latest assessment due to: i) under-performance of Adult Social Services in relation to other departments; and ii) the 'raising of the bar' against which standards are measured.

- b) J Burgess proposed that Councillors meet to discuss planning applications whose deadlines fall outside the timeframe of ordinary meetings. L Hope-Frost to write to request that this vehicle be parked on the drive at Spinney Bank.
- o) L Hope-Frost submitted 2 notices reference the sale of Christmas cards and the date/venue of this year's carol singing gathering; note to be prepared by Clerk and issued. It was agreed to include the date of the Fête within this notice.

**Avon Dassett Parish Council Meeting 07.11.05.
District Councillor's Report**

1. The Council has been considering ways of improving rural transport requirements. Councillors will recall that the travel token system was suspended. The government has decreed that from 1st April 2006 there will be free fare concessionary travel arrangements for all pensioners. The implications of this requirement, which everyone agrees will be a good thing for the community, will have to be considered. The consideration for Stratford is the issue of travelling into other districts, eg. From this parish to Banbury, or from this parish to Leamington Spa. It is hoped that the existing half-price countywide bus pass will be replaced with a free fare countywide bus pass.

In addition to the introduction of free bus passes the district is piloting local community bus services, eg. Wellesbourne is operating a parish-run service around hinterland villages ensuring that people who do not have access to either their own transport or public service are able to make visits to shops, medical centre and other essential amenity requirements.

2. The Council was evaluated in mid-October to measure the progress it is making following the review of all its services carried out in the summer of 2004. Initial indications are that the inspectors were delighted with the improvements that are evident at the present time.
3. Planning performance statistics. As a result of reorganisation within the Planning Department, our service is exceeding national targets. Currently, the government sets a target that we should determine all planning applications within eight weeks as being 65% of applications received. For the last six months our average is 86%. The implications of this success is that the Council is likely to receive a substantial grant, possibly more that £500,000 as a contribution towards improving the planning service. This money must be spent on items such as, improving IT technology or employing staff to undertake specific projects. It cannot be absorbed into the general running of the Council and unfortunately, will not have any implications for the setting of Council Tax next year.
