services
5%
INADEQUATE

GP practices
3%
INADEQUATE

Ratings data as at 31 July 2016

but we still see poor care

76% improved

of those we re-inspected, following
an initial rating of inadequate

Leadership

is important for
improving care

PRESSURE

There are fewer care homes than
before and the sector is fragile

FOR SALE

More demand on the system

Pressure on GPs

500,000

more people in A&E in
2015/16 than 2014/15

We have concerns over future

QUALITY

Is it sustainable?

The answer lies
in **collaboration**
of local services
